

REVISED

STATEMENT OF PURPOSE

RS30062 / SJR101

The Joint Resolution will more fairly distribute voter involvement and inclusivity for initiatives and referenda by giving every legislative district in the state a voice. The Joint Resolution will ensure that the wishes of all thirty-five legislative districts are considered versus only eighteen legislative districts as is currently allowable.

The Joint Resolution will eliminate the current practice of “venue shopping” by well-funded activist organizations. For example, under the current system, it is possible to acquire more than one half of the total number of signatures required to place a question on the ballot from a single legislative district.

This Joint Resolution will maintain the same total number of signatures that are currently required, but it will also require a minimum number of those signatures come from each of the thirty-five legislative districts.

If passed by the legislature, the Joint Resolution will be placed on the November 2024 General Election ballot and voters will ultimately decide whether or not to adopt the resolution.

FISCAL NOTE

There will be no effect on the general fund. There will be no increase in the total number of signatures gathered and therefore counted. The existing workload will be more evenly distributed rather than being concentrated in a particular geographical area.
